

Santiago de Cali, September 2018

To may who concern:

I am a student of interactive media design at Icesi University and I am currently in the internship process, that is why I am writing to you because I am interested in being part of your team since, as look for the best alternatives proposed to the needs of the client so that later they can be carried out effectively, all seen as a challenge to be met in the community.

Currently, I have the task of designing graphic pieces for the Faculty of Natural Sciences of the Icesi University in addition to having done other design work in the university, also worked with UX / UI design with Dresden Partners. Parallel to this I work on my degree project that includes the intervention of a restaurant for the design of an experience which teaches the culinary culture of other regions.

On the other hand, I was part of the Research Seed 418 where we carried out the project "The universe of Duino" whose objective was to design a medium by which we could intervene to young people between 8 and 11 years old to teach them basic concepts of electronic a more interactive way. Finally, I fulfilled my role as a monitor of web programming where my work included assisting students who presented doubts and inconveniences during the class.

I enclose my resume where you can find more information regarding my academic profile and other interventions. I reiterate my interest to be in your team and contribute my knowledge and experience in the same way that I am willing to learn from the hand of great experienced

receive a warm greeting,

José David Gómez Ruíz  
Interactive Media Designer
